

**Visiting J.Geiger Consulting Office**

Our office is located in downtown Appleton in the City Center complex at:  
[10 College Ave, Suite 221](#)  
 Appleton WI, 54911

If you are coming from Hwy. 41, Exit College Ave. and head East on College Avenue towards downtown. After about 3 miles, turn left on Morrison Ave., then immediately turn left onto East Washington street.

Parking is easiest on W Washington St., or on City Center St (marked with red rectangles). These options are metered spots.

If no parking is available on the street or your stay will exceed the 2 hour maximum allowed at the meter, the Yellow parking ramp on E Washington St. is a good option.

Entrance into the City Center building is easiest through the north entrance, shown by a blue arrow next to the parking on City Center St. During inclement weather, there is a covered walkway on the third floor of the parking garage that takes you to the second floor of City Center.

If coming off the street level, once inside the building, head up the escalators. We are located on the second floor, directly to the left after going up the escalator. You should see our logo on our door, come on in!

If you are coming in from the covered walkway from the Yellow parking ramp, follow the signage to City Center. Cross the street, take an immediate right inside the City Center building. Follow the hallway to the end and turn left, again, following the hallway to the end. This brings you to the east side of the City Center building. Enter City Center and keep right until you get to the escalators. Our office faces the escalators

If any questions, you can contact Jeff Geiger at 920-851-3096.
